

Signs and Symptoms

Keeping an eye out for possible signs of a vision problem will ensure that any problems can be detected early to avoid any long-term damage.

- One eye turns in or out while the other points straight ahead
- Frequent blinking
- Red or watery eyes
- Sensitivity to light
- Frequently rubbing eyes
- Difficulty concentrating
- Tilting head noticeably
- Covering or closing one eye
- Difficulty learning to read
- Holding a book very close when reading
- Leaving out confusing words when reading
- Squinting or sitting very close when watching television
- Difficulty recognising familiar people in the distance
- Complaints of headaches, blurred or double vision
- Common Vision Problems in Children
